My name is Christopher Pyles. I am a United States Air Force Veteran newly residing in San Antonio, Texas. I have over 18 years of experience as a broadcast producer, studio director, and content creator specializing in video, photo, audio and graphic design. I am seeking full-time, remote or freelance opportunities commensurate with my skill level. I am fluent in many Nonlinear Editing Systems and Digital Audio Workstations and am consistently learning and adapting to emerging technologies. Most recently, I have gained experience learning 3D animation software (Blender, Unreal Engine) in my free time. I enjoy drawing, painting, creating music, as well as landscape, drone photography and astrophotography. I firmly believe having a generalist approach to media creation is the best practice for success in today's high tempo corporate or commercial environments.

My current camera kit included a DJI Ronin 4D as my primary camera, a Sony A7C as B camera, a Sony FS100, and a DJI Mavic Air 2. I own multiple gimbals and cinema lens kits to fulfill most customer needs. I currently have my FAA Recreational Drone License and am pursuing my full Part 107 commercial license.
